

Administrator Boot Camp

Sign up today for this intensive course that will get new Workfront System Administrators up and running in just 1 week.

Receive personalized direction on setting up Workfront for your organization. • Get insight from Customer Support on commonly asked questions. • Learn how to increase user adoption and work with your company's governance committee. • Be in the know about upcoming software functionality after meeting with the Product team. • And get to know the people behind the company in exclusive meetings with Workfront executives.

Prerequisite courses

- Work Management Part 1
- Work Management Part 2

Workfront will verify that those registered for the Boot Camp have attended the prerequisite courses.

The Boot Camp is designed for first-time Workfront system administrators who have received minimal training on the software.

Dates

2017 dates based on availability. Talk to your Workfront Sales Representative for details or visit <http://lp.workfront.com/admin-boot-camp.html>

Class size is limited.
